Test Deployment Documentation

Test Deployment Documentation

Status: Testing upload script workflow

Created: {{api:version|git.commit_date_formatted}}

Updated: Testing file updates

Purpose

This is a test file to verify that the upload script correctly detects and uploads:

- ☐ New markdown files
- ☐ Updated markdown files
- ☐ Updated PHP files that reference them

Current Version Info

- **PMTNM Version:** {{api:version|version.pmtnm_version}}
- **Git Commit:** {{api:version|version.git_commit_hash}}
- **Site Version:** {{api:version|version.site_version}}
- **Branch:** {{api:version|git.branch}}

Test Checklist

- [x] File created successfully
- [x] File appears in public_docs.php
- [ ] File uploads via upload_only_changes.sh
- [ ] File appears on test.pmtnm.org
- [ ] Updated content appears on test.pmtnm.org

Update Test

This section was added to test that file updates are detected and uploaded correctly.

Test Details:

- Original file had basic content
- This update adds more detailed information
- Should be detected as a change by the upload script

This is a test file and can be deleted after verification.
